Warehouse/Manufacturing	◇	◇

### SPECIFICATIONS

- 1 3/4" DOOR SECTION THICKNESS (44mm)**  
Rollformed from commercial quality galvanized steel and bonded to an expanded polystyrene insulating core.
- PVC BOTTOM RETAINER W/ASTRAGAL**  
Retainer & weatherstrip seals out insects, absorbs closing shock and protects against the elements.
- Prefinished STEEL**  
Exterior and interior door skins are protected with a five coat prefinished flush steel with a woodgrain texture.

- STANDARD HARDWARE 14 Ga**  
Made for both commercial and industrial applications; our door hardware comes standard in 14 ga steel.
- PRE-DRILLED Holes**  
Convenient, pre-drilled holes for on-door hardware.
- BACKUP PLATES 16 Ga**  
Steel backup plates for hardware, hinge and strut reinforcement.

MARITIMER WINDOW - W11

### ADDITIONAL OPTIONS

**TORSION & DUPLEX SPRINGS**

For dependable springs that are perfectly made for your doors; ask about 25k, 50k, or 100k cycle options with our industry proven springs. Square wire available in Canada.

**HORIZONTAL & VERTICAL TRACK**

Available configurations for your specific applications. Our track is produced for your specific incline and headroom applications with the ability to be pre-assembled for your convenience.

**HINGES AND OTHER HARDWARE**

As a full-line manufacturer, we manufacture and sell our own brand of hinges and hardware to accompany your new garage doors.

**COMMERCIAL OPERATORS**

Complete line of commercial, industrial operators manufactured in the USA & Canada for jackshaft & trolley style applications.

**2 3/4" END STILES**

2 3/4" (single end hinge) or 5 1/2" (double end hinge) kiln dried, wood end stiles with an additional option of 24" double steel end caps available.

**CARBON MONOXIDE VENT**

Perfect for all commercial and industrial applications; the 'exhaust port' allows exhaust and other particulates to exit outside when door is closed.

### DOOR SIZES

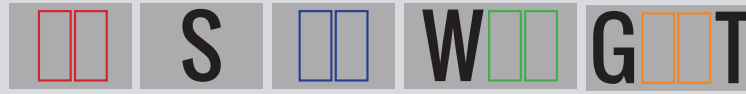

HEIGHTS: 6'6" to 20'0"  
 WIDTHS: 8', 9', 10', 12', 14', 16', 18' & 20'  
 (other dimensions available upon request)
